Flood Insurance: Get it before it's too late

Residents and businesses in the Green River Valley are urged to consider purchasing Flood Insurance now before it's too late. Heavy rains this fall could place thousands of homes and businesses at risk of serious flood damage and billions of dollars in losses. While flood damage is specifically excluded from standard Homeowners and Business insurance policies, Flood Insurance can be purchased through the Federal Emergency Management Agency's (FEMA) National Flood Insurance Program (NFIP). There is a 30-day waiting period before coverage starts on new Flood Insurance policies, placing a greater sense of urgency on those at risk.
